2. Quality Policy

The aim of *FALCO Zrt.* is to completely fulfil the all-time requirements, and to meet the concrete demands of customers, furthermore particularly those of **IKEA and the California Code of Regulations and German Chemicalien-Verbotsverordnung, 995/2010 EUTR regulation, 1907/2006 REACH** & requirements of the **FSC-STD-40-004 Version 3-0 EN FSC Standard for Chain of Custody Certification** & the **FSC-STD-40-005 Version 3-1 EN STANDARD FOR COMPANY EVALUATION OF FSC CONTROLLED WOOD standards**, and the **& PEFC ST 2001:2020 PEFC Logo usage rules – Requirements**, furthermore parallel with the our **Environmental Management System in acc. to MSZ EN ISO 14001:2015 std. and MSZ EN 15358:2011 (SRF) system requirements.**

Production, *treatment* and trading of the *MSZ EN 312:2011* particle board (E-LE) happen, in **FSC MIX Credit**, or **FSC Controlled Wood & PEFC Certified** - or **PEFC Controlled Sources** system in according with the above-mentioned standards. **See: 2/A Wood purchase policy!**
The formaldehyde emission of the particleboard (E-LE) products at CARB-EPA marked products are lower than QCL and limit values of IKEA-IOE-MAT-0003 AA-10899-14 (2019-03-11), and CCR, title 17, 93120.2(a) Phase 2 and EPA TSCA Title VI. (MSZ EN ISO 12460-5:2016 Perforator-value ≤4,00 mg/100 g board (@6,5%MC) and ASTM D 6007-14, or ASTM E 1333-14 emission <0,09 ppm), or at GPCO marked products are lower than QCLs and limit values of the IKEA-IOE-MAT-0181 AA-218346-2 (2019-12-17) and the German Chemicalien-Verbotsverordnung (MSZ EN 16516:2018 emission <0,1 ppm and MSZ EN 717-1:2005 emission <0,05 ppm).

Additionally, our goal is to achieve the satisfaction of the company's customers with reliable, competitive products.

To reach these goals and to satisfy the versatile customer needs

- is determined to continuously improve the quality of its products,
- is consequently developing the technical standard of its products – with controlled production
- is continuously improving the efficiency of its quality control system in order to reach the afore mentioned goals.

In order to successfully implement the appointed aims the company operates a
Quality Control System

extending over its complete span of activities.

FALCO Zrt. takes special care about the constant improvement of the quality level of its products, and therefore

- it defines measurable quality aims,
- controls the execution of the targets determined in the quality aims and
- performs the methodical development of the quality approach of its workers.

***FALCO Zrt.* the manufacturer's activities aim to define the quality of human life to develop environmentally friendly production processes, and the consequent production of environmentally friendly products, through a wood purchasing policy to ensure sustainable development.**
